## ACTEL RELOCATES WORLDWIDE HEADQUARTERS

With Larger Facility, Company Poised for Growth

**What:** On August 18, 2003, Actel Corporation, a supplier of innovative programmable logic solutions, will relocate its worldwide headquarters to a larger facility to better accommodate its existing employees and position itself for future growth. Actel's new 157,000 square-foot facility, located in Mountain View, Calif., will increase the company's operational space by 15 percent.

"Despite the economic downturn, Actel continued to experience modest growth, and our previous facility was bursting at the seams," said John East, president and CEO of Actel. "Given the current real estate environment, we were able to secure this larger, more modern facility at no additional expense. We believe this prudent fiscal management, combined with additional room to grow, will help position Actel for success when the economy recovers."

Actel's worldwide headquarters will be located at 2061 Stierlin Court, Mountain View, Calif., 94043-4655. Currently, the company employs approximately 440 employees at its headquarters and more than 500 people worldwide.
